

Placement

The Placement Office of The University of Chicago Law School is eager to serve alumni, law firms, corporations, agencies, and recent and prospective graduates of the School. Directed by Mr. Sims Carter, Dean of Students, the office screens all job applicants and will refer to your office men and women having the qualities you seek in a young lawyer.

The office can do its best job if it knows early of your needs. Mr. Carter will be happy to arrange conferences and interviews at the School or in your office. Students are graduated in June, September, December, and March.
