maintained the required academic standing. A student who completes his work for the degree of Doctor of Law with a weighted grade average of 78 or better will have satisfied the requirements for the degree with distinction.

Regular class attendance is required as a condition of receiving credit for work done. The privilege of membership in the School may be withdrawn for unsatisfactory classwork or attendance. After the first four weeks of any quarter, a student is not permitted to withdraw from a course, seminar, or special work for which he has registered that quarter, unless special authorization is given by the Dean. To qualify for residence for a full quarter, the student must take and complete 12 or more course hours (3 course units).

VI. Courses of Instruction

The program of each student is subject to the approval of the Dean. Normally all work for the first three quarters is required. A legal writing, research, and moot court program is also required of every student. Students are permitted to specialize in the second and third years. Members of the faculty may prescribe special qualifications for admission to particular courses or seminars.

Unless special permission is granted, the student must take all courses listed below for the first-year program. The numbers in parentheses at the end of each course description represent the value of the course in terms of course hours per quarter.

In order to achieve credit for 135 course hours in nine quarters, the student must take an average of 15 course hours (3¾ course units) per quarter. Unless special permission is granted, no student may take more than 17 course hours in any quarter.
